

GAME GRAPHICS MARKETING AND SALES JOB IN THAILAND

A Dream Job in Thailand, for a young person who likes online sales and marketing.

We are a Game Graphics company with offices in Bangkok and Pattaya. We are looking for someone to help us find more customers.

We have been doing Game Graphics for 8 years and we are very good at it. Our problem is that of the 30.000 game companies in Europe/US/Asia, only 25 of them knows about us. We need someone with a LOT of energy to find and contact all the game companies and show them we can make high quality game graphics very fast and VERY cheap!!

THE JOB:

1. Finding Customers

Your job is to find and identify game companies in Europe, US, Asia who need graphics for their games.

You can find these companies by using Google and contacting the Game Business directories for lists.

There are around 10.000 game companies in Europe alone (even small countries like Denmark and Norway each have +150 game companies each). We already have lists of more than 500 Scandinavian game companies and have started on Germany.

2. Marketing to Customers

You need to send a personal email to new game companies, explaining what we do and how we can help them.

We already have several templates to help you get started. We also have a very cool portfolio you can show them. <http://www.flipinvert.com/FlipInvert-Portfolio-Large.pdf>

3. Selling to Customers

Only 10% will answer on a email. This number can be greatly increased if you decide to call them and talk to them personally.

You are allowed to offer them "First project free" which means they can test us by giving us a task or mini project which we will do for free.

After that they can keep the graphics even if they choose not to work with us. This is a win win offer for the customer.

Once a customer shows interest, we will take over and do all the work from there on (pricing, contracts, production etc...)

4. Working Hours

We operate with 100% flexible hours. There is no real working hours here as long as you bring in new customers.

Usually we are at the office between 10:00 and 20:00. Sometimes we work nights and sometimes we just go to the beach :)

Since you will be talking to customers all over the world it is important that you are flexible on your working hours.

5. Skills

- You need to have PERFECT English skills
- You need to be very good at communicating with customers
- You need to use Google Translate to communicate with people in other languages
- You need a HIGH level of energy cause the more customers you contact, the more money you will make

WHAT DO WE OFFER:

- Free apartment/room at our offices, 50 meters from Wong Amat Beach North of Pattaya, only 1½ hour from Bangkok.
- All utility bills paid (Electric, Water, Internet...)
- Free cleaning of your room once a week with change of sheets and towels
- Modern work space at the office with PC, LED screen etc.
- Free use of the company's motorbikes, kitchen and washing machine
- Free use of fitness centers and swimming pools at our many beach front condominiums and resorts
- Free Business Visa
- Free Mobile phone bill
- Base salary of 10,000 baht
- 10% Commission.
For each customer you find, you get 10% of all work we do for them **for 12 months!** Even if you decide to stop working for us we will still keep paying you monthly commission for the customers you found. If a customer orders for 185,000 a month, your monthly salary will go from 10,000 to 28,500 and so on...

WHO ARE WE ?

We are a small company with 14 people who specialize in making graphics for games (mostly mobile phone games for iPhone and android)

We been in this business for 8 years and we still manage to keep all our customers because we deliver very high quality graphics at a very cheap price (3-4 times cheaper than Europe).

Our graphics team lives in Bangkok, lead by Art Director Leng Jariyatrakul from Thailand.

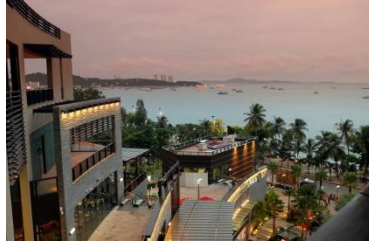

Our administration team lives at Wong Amat Beach near Pattaya, lead by company founder Torben Rudgaard from Denmark.

We currently only have 7 customers but we need more. We have high skills and long experience in game graphics, all we need are more customers.

Are you the person to help us find them?

What is the cost of living in Thailand?

Since we pay your rent and utilities, the cost of living is very low. If you eat at a local Thai place, or buy food at the market, you can live for as little as 150 baht a day. I myself managed to live on 50 baht a day when I started my first company here.

The only expensive thing is if you party and go shopping a lot. And this city has many activities and the wildest nightlife in the world along with huge shopping malls and great restaurants everywhere, so there are many temptations.

This is what you have to pay yourself:

- **Flights to and from Thailand**

- **Health Insurance**

It is a very good idea to have this and you can either buy in your country or buy one locally in Thailand for 5,000 baht a year.

- **Visa Run**

Every 3 months you have to go in and out of Thailand on a "visa run" which is a bus trip to Cambodia or Laos and takes from 6 hours. We will pay all visa fees, government charges and prepare all papers for you, but you must pay for whatever visa trip you choose. Often it's more fun to take different trips to see other countries while you do your visa run (Cambodia, Laos, Vietnam, Malaysia, Philippines, Singapore)

- **Work Permit**

With a work permit you don't have to do visa runs. We can help you make one if you want, but they are quite expensive (45,000 baht) so you will have to pay that yourself. We will prepare all papers and documents for free (around 80 different documents are required) and help you with everything. Our company is BOI approved so we can do this very quickly.

- **Luxury Life Bonus!!**

If you manage to get your commission over 30,000 a month, we will cut your base salary and upgrade you to one of our 5 star luxury apartments. These usually cost 20,000 a month to rent, but you will get to stay there for free! (we will pay water and internet, you have to pay electric)
